MEDICINAL.

Each of the chief organs of the body is a link in the chain of life. A chain is only stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of heart or lungs, liver or kidneys, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of disease of the stomach and other organs of digestion and nutrition. Diseases of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

"I was in poor health when I commenced taking Dr. Pierce's medicines," writes Mr. Elmer L. Allen, of Volga, Jefferson Co., Ind. "I had stomach, kidney, heart, and lung troubles. Was not able to do any work. I had a severe cough and hemorrhage of the lungs, but after using your medicine a while I commenced to gain in strength and flesh, and stopped coughing right away. Took about six bottles of 'Golden Medical Discovery.' I feel like a different person. I gladly recommend your medicine to all sufferers, for I know it cures me."

The use of Dr. Pierce's Pleasant Pellets will cure that foul breath.

ASSAULTS THE SCHOOL TAX.

Rev. P. F. O'Hare, rector of St. Anthony's Church, in Brooklyn,

preached a sermon yesterday morning at St. Joseph's Church, before the

graduates of St. Mary's Seminary of Baltimore. The mass was celebrated by Bishop Donohue, of Wheeling,

W. Va. Before being delivered the discourse was submitted to Bishop McDonnell, who said that, so far as he could see, there was nothing improper or impolitic in it. After speaking of the loyalty and devotion of the Catholic hierarchy and clergy Father O'Hare said:

"But we must not forget—and the danger is that we may forget—that the church has not passed all dangers from without; that the ship is still being tossed with the waves; that the wind of hatred, prejudice, and unjust discrimination is still against us. The school question, for instance, is not settled yet, neither as to the principle upon which it is based nor, in practice, as to the injustice growing out of that principle under which we live. There is no compromise between truth and error. And we will not, we cannot, we dare not compromise with the principle which maintains that the State possesses an inherent right to the education of the child; that in education, that part which deals with the moral interest of the child, religion may be entirely disregarded and eliminated from the schedule of studies. The Church of Rome will never divide her divine commission to teach with any other power on earth; the priesthood of that Church, who know by experience the value of character in human life, will not compromise with a principle which treats the development of character in the child either as of no consequence or something which should be attached to the child as a mere ornament in the Sunday school. "In the application of this principle in the imposition of a tax for schooling in which we cannot participate without doing violence to our consciences, we recognize an injustice as gross as it is burdensome to our people, as an innovation not intended by the framers of the constitution; something foreign to our idealism, as emanating from the secret alliance of modern infidelity and Freemasonry, aimed at the oldest historic church in Christendom. If there is any truth in the principle—no taxation without representation, then we are without representation in the various halls of State and national legislation. The equal political rights to which we are entitled by constitutional provision and by the more valid moral claim of 100 years of loyalty, devotion and patriotism unsurpassed by our separated brethren, is a mere hollow mockery and violated by the most cunning means. Our most holy faith is oft regarded as a stumbling block and a hindrance in the service of the government which we chiefly helped to erect, to maintain and to defend. That the highest honor in the gift of the people, the chief magistracy of the nation, should not be accorded to one who possesses our holy faith still remains an unwritten law of the land, the outgrowth of hatred, fanaticism and bigotry."

GRAND DUCHESS LEAVES HUSBAND. Matrimonial differences that have long existed have resulted in the final separation of the Grand Duchess of Hesse from her husband. The most strenuous efforts are being made to avert a scandal, especially in court circles in Berlin, but there seems to be no way of preventing a divorce. The Grand Duchess is the younger sister of the Crown Princess of Prussia, and has always taken a deep interest in army affairs, having been appointed by her husband as honorary colonel of the Third Grand Ducal Regiment. She has been a frequent visitor to the regiment while it was on field duty, and has always been a great favorite of the officers. The Grand Duke and Grand Duchess have only one child, a daughter, the Princess Elizabeth. It has been the ambition of the mother that this child should succeed to the throne of Hesse. The untimely death of the duchess, however, permits only a mere sovereign. In case of the death of the Grand Duke the next in succession would be the blind Prince Alexander, and next in line of succession is Prince Frederick Charles, who is the brother-in-law of Emperor William. The reigning Grand Duke is the only brother of the Czarina of Russia.

THROWS A SHELL TWENTY-ONE MILES.—As soon as the new traction hook can be received from the Bethlehem Steel Company, work will be resumed at the United States arsenal at Watervliet, N. Y., on the new 16-inch gun which is to be made for Fort Hamilton in New York harbor. This gun will be the largest ever made in the world. It is a breech-loader and the breech will be so constructed that a child can open and fire it. It will shoot a distance of twenty-one miles, but in order to do so the shot will assume an altitude as high as Pike's Peak. After the hook has been placed in it the gun is to have another jacket shrunk on it. Military men the world over are very much interested in the mechanism of this gun, as it will be an innovation for coast defense.

HECHT'S GREATER STORES.

513-515 Seventh Street, N. W.,

WASHINGTON, D. C.

YOUR WORD IS CASH HERE.

Your word and your money are one and the same at the Hecht stores. Our policy recognizes all alike; whether you are mistress of a mansion, or mistress of a kitchen, the banker or the laborer, the same courteous, broad-minded, impartial attention is accorded you. Don't have the least hesitancy about charging whatever you buy. After you have made your purchases, and you know the price then it is the time to tell the sales person to "have it charged." Just keep in mind that you are only one in a thousand daily taking advantage of this most liberal of credit systems. Payments will in every case be made to suit your convenience—whether weekly, semi monthly or monthly.

At \$12.50--Ladies' Suits.

There's reason enough for the greatly increased volume of business coming to this ladies' ready-to-wear department—for it has never been so splendidly able to serve you, and serve you to your abundant satisfaction.

Just now most of the selling emphasis is placed on the big showing of the \$12.50 Tailor-made Suits—and at the price we can assure you that better values and more high-class garments never came from the tailors' hands. There's a considerable display \$12.50 of styles, fabrics and colors—Even a long coat and skirt set in one.

There's an unequalled showing of Ladies' Suits in every style, grade and fabric from \$12.50 to \$15.00 and more—the finest imported costumes vying with the very stylish productions of our own best makers.

A Rush for Raglans.

Surprising what a run the Raglans are having, and the prediction is being made good that the smartest of the season's wraps and the wrap which has the decided approval of fashion would be the Raglan. They're here in the loose back and half-tail style and in all the colors—tan, Oxford and blue—all sizes, and high grade in every respect; \$12.50 \$20 is the prevailing price for such a garment; the price here is \$12.50.

Women's Skirts, Better-than-ever Showing.

We might write columns about this skirt department, and then tell but half the story. There's a world of meaning in the volume of selling—shows the popularity of the Hecht-made and Hecht-sold skirts, and shows how greatly below the usual level are the prices. If you're buying a skirt in mind you'll appreciate what we can show you.

Digests what you Eat

Dyspepsia Cure

A powerful engine can't be run with a weak boiler; a weak stomach, or rather our stomachs, can't be replaced, and we cannot stop the human machinery while making repairs. But when the stomach is unable to digest enough food to keep the body strong, we can use such a preparation as Kodol Dyspepsia Cure. It digests what you eat, so that you can eat all the good food you want, without any distress after eating.

"After forty years of suffering from indigestion, a few bottles of Kodol Dyspepsia Cure cured me."—And Bell, Fredonia, Pa.

It can't help but do you good
